

Receipt
#5

Patent
P56612

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of:

Kwey-Hyun Kim et al.

Serial No.: 09/996,771

Examiner: To be Assigned

Filed: 30 November 2001

Art Unit: 2871

For: DISPLAY APPARATUS

SECOND REQUEST FOR CORRECTED OFFICIAL FILING RECEIPT

The Assistant Commissioner
for Patents
Washington, DC 20231

Sir:

The attorney for the Applicant notes that the Official Corrected Filing Receipt (PTO-103X) for the above referenced Application bears an error in the number of independent claims as shown below:

1. **Correct:** Independent Claims from "1" to -- 2--

To support this Request, copies of New Application to show the number of independent claims is enclosed.

Please correct and re-issue a Corrected Filing Receipt including the change mentioned above.

Respectfully submitted,

Robert E. Bushnell
Attorney for the Applicant

CORRECTED FILING RECEIPT

OC000000007232823

Date Mailed: 12/26/2001

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. **If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).**

Preliminary Class

349

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

WHAT IS CLAIMED IS:

First independent claim

1. A display apparatus having a cathode ray tube bulb which includes a panel displaying a picture thereon, a funnel combined with the panel, and a neck combined with the funnel, said apparatus further comprising:

an electron gun unit including an electron gun main body inserted into the neck, and a boss part protruding from the neck at a rear end part of the electron gun main body and having a plurality of pins arranged thereon; and

a video unit including a video printed circuit board (PCB) disposed parallel to the axis of the neck, and a boss holder vertically provided on the video PCB and connected to the boss part so as to transmit a video signal from the video PCB to the electron gun unit.

2. The display apparatus according to claim 1, wherein the video PCB is horizontally installed under the neck.

3. The display apparatus according to claim 1, wherein the boss holder has a plurality of pinholes formed therein for receiving the plurality of pins of the electron gun unit.

4. The display apparatus according to claim 1, further comprising a neck fixing holder provided on the video PCB for fastening the neck to the video PCB.

1 5. The display apparatus according to claim 4, wherein the neck fixing holder comprises a
2 pair of ring holders into which the neck is inserted.

1 6. The display apparatus according to claim 5, further comprising connecting means for
2 connecting the ring holders to each other when the neck is inserted into the ring holders.

Second independent claim

1  A display apparatus, comprising:

2 an electron gun unit including a main body and a boss part protruding from a rear part of the
3 main body, said boss part having a plurality of pins disposed thereon and extending rearwardly
4 therefrom; and

5 a video unit including a video printed circuit board (PCB) and a boss holder vertically
6 disposed on the video PCB for connection to the boss part of the electron gun unit so as to transmit
7 a video signal from the video PCB to the electron gun unit.

1 8. The display apparatus according to claim 7, wherein the boss holder has a plurality of
2 pinholes formed therein for receiving the plurality of pins of the boss part.

1 9. The display apparatus according to claim 7, wherein the electron gun unit is inserted into
2 a neck of a cathode ray tube bulb, and the video PCB is horizontally installed under the neck of the

3 cathode ray tube bulb.

1 10. The display apparatus according to claim 9, further comprising a neck fixing holder
2 provided on the video PCB for fastening the neck to the video PCB.

1 11. The display apparatus according to claim 10, wherein the neck fixing holder comprises
2 a pair of ring holders into which the neck is inserted.

1 12. The display apparatus according to claim 11, further comprising connecting means for
2 connecting the ring holders to each other when the neck is inserted into the ring holders.

ABSTRACT

1
2 A display apparatus has a cathode ray tube bulb which includes a panel displaying a picture
3 thereon, a funnel combined with the panel, and a neck connected to the funnel. The display
4 apparatus further comprises an electron gun unit which includes an electron gun main body inserted
5 into the neck and a boss part protruding from the neck at a rear part of the electron gun main body
6 and having a plurality of pins disposed therearound, and a video unit which includes a video PCB
7 disposed parallel to the axis of the neck and a boss holder vertically provided on the video PCB and
8 combined with the boss part so as to transmit a video signal from the video PCB to the electron gun
9 unit. With this configuration, space for installation of the video PCB is minimized, and the video unit
10 is not easily separated from an electron gun unit.
